

COVID-19 Information

Windows Plus is committed to the safety of our employees, our families, and our customers. State and local responses for guidelines and requirements in the tri-state area have determined window and entry door replacement an essential business for safety and sanitary reasons.

We are following CDC guidelines for businesses that remain open during this time. We're committed to meeting the needs of our customers, while ensuring the health and safety of our clients, ourselves, and our community. To do this, we've made changes and updates to our business operations in response to the threat posed by COVID-19 (coronavirus).

Windows Plus has implemented enhanced sanitation and cleaning policies for our employees, vehicles, and showroom/offices. We are keeping our showroom open, but we are limiting the amount of people allowed in our showroom and any given time in order to adhere to social distancing guidelines.

In-home estimates have been updated to allow minimal contact with our customers and their homes. We are also able to measure and consult our clients from outside their homes, and send all quotes electronically via email.

We've implemented an online quoting platform as well as virtual consultations to serve our customers who would prefer this in lieu of traditional in-home estimates. If you would like to submit your measurements and complete this form, we can put together an estimate for your project. Please note: Quotes provided via our online quote request forms are not final; all formal Windows Plus quotes require an in-home estimate for verification of sizes, options, building regulations, etc. To fill complete our online window quote form, [please click here](#). Or call our office at 513-272-2222 to schedule a virtual presentation.
