KINGSROYAL GLIDE

SoftLite®
Windows & Doors

KINGSROYAL GLIDE

Our Kingsroyal Glide will beautify any room ... especially when combined with sidelites and transoms. Your numerous aesthetic options with a Kingsroyal include two designer handles in a variety of colors, internal miniblinds, four interior wood grain finishes and three interior colors, unlimited exterior colors, and a wide selection of grid patterns. For your comfort and peace of mind, we've loaded this door with features that make it durable, energy-efficient, and more practical than almost any other door on the market. Enhance the appearance and value of your home with a new Kingsroyal Glide custom-designed to your personal taste.

Limited Lifetime Warranty

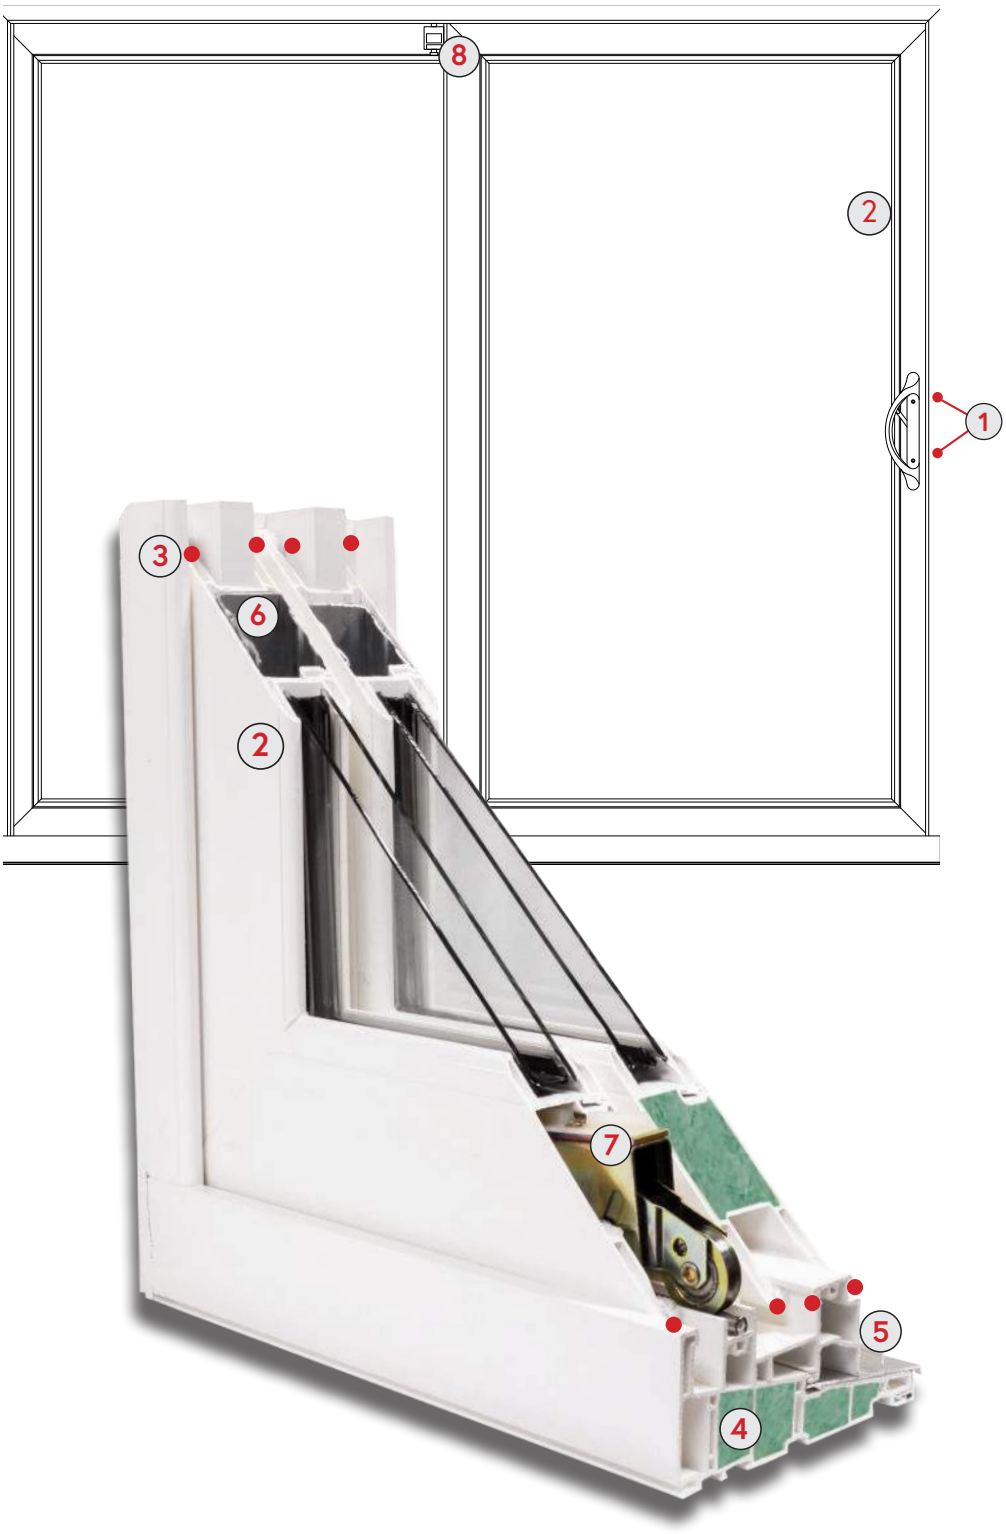
Our Lifetime Warranty is designed to protect your investment and our reputation. It guarantees that our patio doors will not rot, rust, chip, corrode, or blister for the life of your home.

Our Lifetime Limited Warranty is non-prorated, fully transferable, and covers all moving vinyl parts and the hermetically insulated glass seal against defects in materials or workmanship.

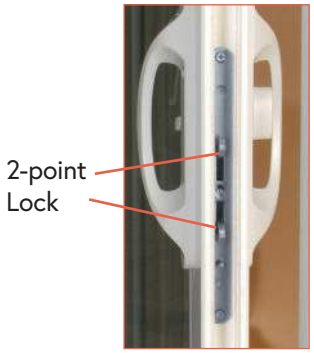
Finally, we offer the ultimate in protection with an optional lifetime glass breakage rider for extra peace of mind.

Operational hardware and miniblinds are warrantied for 10 years.

Advanced Technology Features

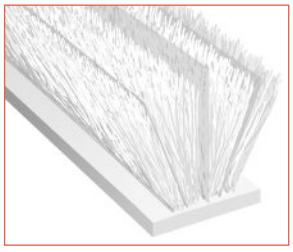


1 2-point, stainless steel, mortise lock securely locks the door into the jamb.



2 Kingsroyal's designer-molded sash stiles and rails are 3-1/2" wide. This design provides for a slimmer-looking sash and allows for more viewing area through the glass.

3 UltraSmart triple-fin weatherstripping with UltraFresh antimicrobial protection minimizes drafts, dust, and pollen, and fights the growth of mold and bacteria. Multiple contact points ensure extra protection.
(● = weatherstrip locations)

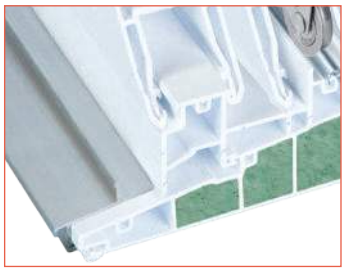


4 We inject our doors with R-5 ComfortFoam — an excellent insulator that improves the door's thermal effectiveness.

AAMA Gold Label Certification*	
Air:	0.06 cfm at 25 mph — 5 times better than industry minimum of 0.30 cfm
Structural:	DP 50 at 171 mph

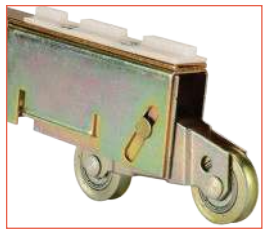
* Above values are for a DP 50 door. DP 35 door is also available.

5 An aluminum-capped threshold provides durability, longevity, and smooth operation of the screen.



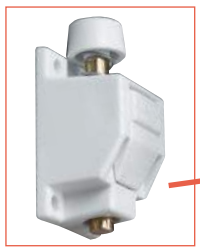
6 We manufacture Kingsroyal patio doors with metal reinforcement in vertical sash stiles, which makes the doors exceptionally strong and durable.

7 Our heavy-duty, ball-bearing, DuraRoller, with its 1 1/4" diameter dual wheel, keeps your door reliably on track. The roller is fully adjustable for smooth operation and alignment with the frame and locking mechanism.



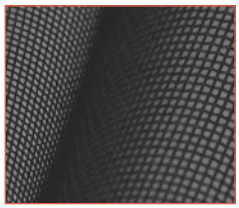
8 Kingsroyal Glide is available with an optional heavy-duty deadbolt that can be installed as a ThumBolt or ToeBolt. This easy-to-use, effective vent-stop prevents the door from opening more than a few inches while still allowing for ventilation and providing added security.

THUMBOLT™



TOEBOLT™

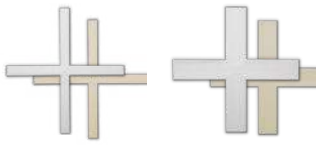
9 Optional TuffScreen is a durable, vinyl-coated polyester insect screen that is stronger than traditional screening, designed to resist tears, punctures, and damage from pets and high-traffic areas.



Durable Beauty Inside and Out

Decorative Grids

These grids are inside the glass, which means no dust! Choose from a wide selection of patterns (based on size and configuration of each door). Color samples may vary from brochure. See your SoftLite dealer for precise color representations and configurations.



FLAT GRIDS

Standard (5/8") | Wide (13/16")

Standard available in all color options
Wide only available in white or beige

CONTOUR GRIDS
